

How big an outdoor power bank should I bring to Ireland

Overview

How many power banks can you carry on a plane?

This may be new, as I never noticed it before. Apparently, the IATA have introduced rules, saying that you can carry up to two power banks with a total capacity of up to 27,000 mAh. Maybe Aer Lingus have a blanket ban to save hassle arguing the finer points with idiot passengers. Really though, they should allow most normal power banks.

What are the power bank rules across European airlines?

By following these steps, you will gather comprehensive and reliable information about power bank rules across European airlines. Passengers can carry power banks under 100Wh on airplanes in Europe without restriction. For those between 100Wh and 160Wh, airline approval is needed.

Can you bring powerbanks and batteries on international travel?

The first step to bringing powerbanks and batteries on international travel is to know the regulations. Check the regulations of the airline you'll be flying with, as well as the regulations of the countries you'll be visiting. Some airlines and countries have restrictions on the size and type of batteries and power banks you can bring on board.

Can you put a power bank in a bag?

Avoid using a power bank inside a bag as it can overheat. Power banks are treated the same way by most airlines because the rules come from safety bodies like IATA (International Air Transport Association) and the FAA (Federal Aviation Administration). The good news is that the important points are pretty straightforward.

How many power banks can you carry on Aer Lingus?

Apparently, the IATA have introduced rules, saying that you can carry up to two power banks with a total capacity of up to 27,000 mAh. Maybe Aer Lingus

have a blanket ban to save hassle arguing the finer points with idiot passengers. Really though, they should allow most normal power banks. 5. Re: Power banks on Aer Lingus?

.

What is a power bank capacity limit?

Power bank capacity limits are often set at 100 Wh (Watt-hours) for unrestricted carrying. This means power banks with a capacity of up to 100 Wh can be taken on board without prior approval. A power bank rated between 100 Wh and 160 Wh requires airline approval for transport.
