

How many 5G base stations are there in Samoa

Overview

Will Samoa get 5G?

Samoaan customers with compatible 5G devices in and around the Levili Data Centre, FMFMII, NFP building, Tatte building and Frankie mall will be among the first in Samoa to experience the power of 5G. Digicel Samoa CEO, Anthony Seuseu, said; "We are thrilled to be the first mobile network in Samoa to go live with 5G.

Why did Digicel Samoa launch 5G?

The decision to launch 5G technology underscores Digicel Samoa's dedication to providing high-speed connectivity and exceptional network experiences for its customers. By partnering with Nokia, a global leader in telecommunications technology, Digicel Samoa aims to upgrade its cell tower sites, starting with those in Apia CBD.

Does Nokia support Digicel Samoa?

Jae Won, Head of APAC at Nokia, highlighted the company's support for Digicel Samoa in this crucial network infrastructure project. He praised Nokia's AirScale portfolio for its ability to support various deployment scenarios and frequency bands, enabling enhanced mobile broadband services through 5G technology.

How fast is 5G?

Initial test results at the new 5G sites boasted average speeds of a staggering 550-600Mbps, with the full potential reaching up to 1Gbps (speeds may vary due to factors such as location, distance from the mobile tower, local conditions, concurrent users, hardware and software configuration and download/upload destination).

Will 5G be better than 4G?

Customers with compatible 5G devices will be able to access faster speeds

than their current 4G, enabling superior streaming, lightning-fast downloads and an enhanced gaming experience.
