

# **How many 5G base stations are there in Southeast Asia**

## Overview

---

Are 5G networks progressing in Southeast Asian countries?

Despite delays caused by the COVID-19 pandemic, 5G networks are progressing apace in many Southeast Asian countries.

How many 5G subscriptions are there in South East Asia & Oceania?

Although each country in the South East Asia and Oceania region is at a different stage of their 5G journey, 5G is growing strongly, with the regional number of 5G subscriptions expected to reach close to 30 million in 2022. 5G is forecast to have around 620 million 5G subscriptions in South East Asia and Oceania by the end of 2028.

Which Asian countries are 5G-ready?

Nine of the sixteen Asian countries are now 5G-ready: South Korea, Taiwan, Japan, and China. These countries are ahead with their 5G rollouts in Asia. India and Indonesia have made little progress. The APAC region is progressing well with the rollout of 5G, with government support being a key differentiator in how quickly a country can be 5G-ready.

Which countries are leading 5G network deployment?

South Korea, China, and Japan have led the way in 5G network deployment. With the continued rollout of 5G networks in other regional markets, Asia Pacific is on track to become the largest 5G market globally. Advanced Asia Pacific markets have taken the lead in the 5G rollout.

Which countries are leading the 5G rollout?

Advanced Asia Pacific markets have taken the lead in the 5G rollout. Countries such as South Korea, Australia, and China, were among the first in the world to launch commercial 5G networks as more markets joined the ranks. 5G performance outranks Europe.

How many people use 5G in Thailand?

Thai service providers have been quick to roll out 5G coverage across the country and 5G now covers more than 80 percent of the Thai population. 5 Around 7.3 million subscribers of the 2 leading service providers were using 5G at the end of Q2, 2022. Both service providers have attributed recent revenue growth and subscriber net additions to 5G.
