

# How many companies produce energy storage containers in Lithuania

## Overview

---

Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.

How to ship a container to Lithuania?

To ship a container to Lithuania, you can do so in FCL (Full Container Load) or LCL (Less than a Container Load) shipment at the best rate with iContainers\*. iContainers operates in 1 port in Lithuania from the United States and in 1 port in Lithuania from Spain for ocean freight transport.

How DH &C systems are being implemented in Lithuania?

Currently part of DH systems in Lithuania is installing and/or planning to install heat storage facilities, which will enable an increase the efficiency and enhance the living age of biomass-burning DH&C systems. These are mainly insulated hot water tanks and/or underground water tank storage.

What are the main sectors of RES development in Lithuania?

According to the National Energy Independence Strategy, there are three main sectors, where the development of RES is planned and accounted for in the National statistics of Lithuania: the electricity sector, the district heating/cooling sector, and the transport sector.

How many independent heat producers are there in Lithuania?

There were 23 unregulated and 20 regulated independent heat producers in the CHP production market. The share of woody biomass (mainly wood chips and the renewable share of municipal solid waste) is currently over 85% of the fuel used in district heating in Lithuania.
