

How much does a solar panel cost in Estonia

Overview

How much does electricity cost in Estonia?

Estonia, June 2023: The price of electricity is 0.320 U.S. Dollar per kWh for households and 0.183 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

Did Estonia introduce a new solar policy?

Yes, Estonia introduced a new policy for solar and renewables in June 2018. This policy led to the deployment of approximately 90 MW of solar power, bringing the cumulative capacity to around 107 MW by the end of 2018.

Why is Estonia installing 90 MW of solar?

The 90 MW of newly deployed solar in Estonia, according to Meesak, is due to a new policy for solar and renewables introduced by the Estonian government in June. "The Electricity Market Act was passed in parliament on June 6, the real race started after the market regulation was clear," said the solar body CEO.

How much PV capacity does Estonia have?

According to Andres Meesak, CEO of Estonia's PV association, Estonia now has around 107 MW of cumulative installed PV capacity. This represents a significant increase from the 17 MW of cumulative capacity at the end of 2017.
