

How much does it cost to install a base station power supply

Overview

Average cost per kWh ranges from \$400 to \$750. A 13.5 kWh system like the Tesla Powerwall can cost about \$10,000, including installation. This refers to how much energy the battery can deliver at once. The higher the power output rating, the more appliances it will be able to power simultaneously. How much does a base generator cost?

Peace of mind for any outage—at a price that makes sense. Keep your power on when the grid goes down. The Base system packs up to 50 kWh of capacity—enough to power your home for up to 48 hours with reduced energy consumption. Most standby generators can cost upwards of \$15,000—Base is 95% more affordable.
