

Huawei Nordic pack lithium battery customization

Overview

Can Lithium Werks make a custom battery pack?

Lithium Werks' patented Nanophosphate® battery technology (designed by MIT and A123) can be used in your custom modules. We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or pouch cells can be produced for your pack.

Where is Lithium Werks made?

Lithium Werks has two wholly owned manufacturing plants located in Changzhou and Suzhou, China, providing low-cost cell and pack production for your custom module and pack designs.

Can Lithium Werks provide a battery management system (BMS)?

Lithium Werks can provide modules and packs with BMS (Battery Management Systems) to monitor, control and communicate with your devices or configure the modules to accept off-the-shelf BMS products. Lithium Werks builds custom battery packs and modules using lithium iron phosphate LFP batteries.

What makes Lithium Werks unique?

Lithium Werks has a unique set of integrated capabilities in high-performance LFP solutions leveraging its strong IP, design & engineering skills and 20+ years of manufacturing experience. Lithium Werks' patented Nanophosphate® battery technology (designed by MIT and A123) can be used in your custom modules.
