

# **Hungarian household energy storage scale**

## Overview

---

Hungary's 2022 National Energy Strategy threw down the gauntlet: 90% of households should have access to energy storage solutions by 2030. But how?

Through a mix of juicy incentives and smart grid upgrades that make your grandmother's fuse box look like steam-age tech. Will Hungary support the installation of new electricity storage facilities?

Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 MW/1600 MWh of new electricity storage facilities.

Will Hungarian electricity storage facilities support a net-zero economy?

The European Commission has approved a €1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy.

Does Hungary need a state aid energy storage scheme?

The national funding will support the installation of 800MW of large-scale electricity storage. Hungary seeks to increase storage capacity in order to offer greater grid flexibility. Credit: Dorothy Chiron via Shutterstock. The European Commission has approved a €1.1bn (\$1.2bn) state aid energy storage scheme from the Government of Hungary.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. [Home » News » Electricity » Hungary awards EUR 158 million for 440 MW of energy storage.](#)

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power.

Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

How will Hungary support large-scale electricity storage projects?

Hungary aims to support the installation of 800MW (1,600 megawatt-hours) of large-scale electricity storage projects through the scheme. "This €1.1 billion Hungarian measure will facilitate the development of electricity storage capacity.
