

# Indonesia lithium battery battery pack

## Overview

---

How will Greenway develop a lithium battery factory in Indonesia?

In terms of technological capabilities, Greenway will inject its globally leading lithium battery technology and PACK production expertise into the Indonesia factory. Using this as a starting point, the company aims to gradually achieve localized production of battery cells.

Will made in Indonesia lithium batteries be a success in the EU?

When this happens, the EU market will be very promising for Made in Indonesia lithium batteries. Luhut said the new lithium battery factory is set to be built in Patimban, near Subang in West Java. The plan should help reduce the national deficit and counter the EU's plan to ban fossil-fueled vehicles.

Why is Batam a good place to manufacture lithium ion batteries?

Batam has capitalized on its geographic advantage by developing state-of-the-art industrial parks focused on high-tech manufacturing and lithium ion battery pack manufacturers. Surabaya, as Indonesia's second-largest city, is fast becoming a crucial hub for lithium battery makers in the archipelago.

Why is Indonesia a key player in the battery supply chain?

As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a critical player in the global battery supply chain, with several key cities developing into hubs for lithium battery production.

Are made in Indonesia lithium batteries the future of electric cars?

Luhut said the plan to produce lithium batteries, which are used in electric cars, is also a reaction to the European Union's (EU) plan to ban fossil-fueled vehicles by 2045. When this happens, the EU market will be very promising for Made in Indonesia lithium batteries.

Why should you choose PT Indonesia Battery Corporation?

The key advantage of PT Indonesia Battery Corporation lies in its integrated approach to manufacturing. Utilizing Indonesia's abundant nickel resources, the company maintains control over the entire production process, from raw material extraction to the final battery product.
