

Install the battery cabinet to the cabinet

Overview

How do you reinstall a battery cabinet?

Reinstall the left side panel on the left-most battery cabinet after interconnection. Push the third battery cabinet into position, align with the seismic anchoring (if any), level the battery cabinet, and interconnect with the other battery cabinets as described in step 2, step 3, and step 5.

How do you level a battery cabinet?

Remove the side panels that are adjacent to the other battery cabinets. Push the right-most battery cabinet into position. For seismic anchoring, ensure that the rear seismic bracket connects to the rear anchors. Lower the levelling feet until they connect with the floor - use a bubble-leveler to ensure that the cabinet is level.

How do you install a kitchen cabinet?

freestanding, If allow for 610mm. Place the base cabinets on their it the adjustable legs. STEP FOUR Take care to ensure that tall housings and wall cabinets all line up vertically before any are fixed in a position. STEP SIX Cabinets should be fixed together behind the hinge plates and also at the top/ back of the
