

# **Island photovoltaic panel manufacturer**

## Overview

---

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean. We specialize in commercial systems from 50 kW to multi-megawatt utility scale systems. What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.

What are offshore floating solar plants?

Offshore floating solar plants offer the opportunity to utilize open sea space to provide clean energy solutions to areas with less access to other renewable energy sources, like wind, tidal and wave. While also maximizing energy yields in areas with high solar irradiation.

Is offshore solar a solution?

While also maximizing energy yields in areas with high solar irradiation. Amongst others, FPSO's (offshore platforms) and aquaculture are forced by governments to reduce their CO2 footprint. Without the use of expensive non-renewable energy solutions, in many cases offshore solar is the solution.

Why should you choose a Floating photovoltaic system?

Thanks to the anchoring system, we create floating systems that ensure optimal sealing, guaranteeing stability and reliability both during installation and maintenance operations. The first company in Italy and one of the first in the world to operate in the floating photovoltaic sector.
