## Overview

---

What makes a container explosion-proof?

Containers for explosion-proof zones feature specially designed internal and external components that are blast-resistant, which promotes greater safety during shipping. The focus is on ensuring that parts that come in direct contact with the cargo are built to resist explosions, which significantly reduces the risk.

How many ft containers are suitable for explosion-safe storage?

In Summary: Choose from 10 ft or 20 ft containers for explosion-safe storage suitable for offshore. Personalize your unit to meet your exact storage needs. Explore options and get a tailored quote to fit your specific situation. We recognize the unique challenges of storing hazardous goods, particularly in the offshore sector.

Is your combustible storage explosion proof?

In high level fire-rated regulation, all structures for flammable storage must be explosion proof. US Hazmat Storage can provide expert combustible storage advice, with over 30 years of experience.

What equipment is included in a fire hazard container?

The container is outfitted with explosion-proof equipment, including a control panel, gas and heat/smoke detectors, a fume hood, an air conditioner, lighting, switches, and sockets, all ensuring maximum safety in potentially hazardous conditions.

Why should you choose anti-explosive containers for explosion-proof zones?

When shipping dangerous cargo in explosion-proof zones, it is imperative to choose anti-explosive containers that are built to meet these challenges. Containers for explosion-proof zones feature specially designed internal and external components that are blast-resistant, which promotes greater safety

during shipping.

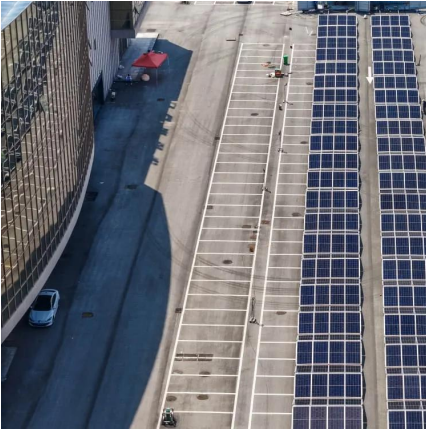

Are ATEX containers safe?

Practical Information: Our ATEX Units are compact yet prioritize safety, making them ideal for space-constrained offshore locations. Both the 10 ft and 20 ft models are constructed for durability, ensuring longevity even in demanding conditions. The containers offer ease of placement and relocation, allowing flexibility for your storage site.
