

Korean new energy battery cabinet replacement

Overview

What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

Why do you need an electric motorcycle battery swap cabinet?

The electric motorcycle battery swap cabinet has been the perfect fit. Its modular design allows us to add more cabinets as our fleet expands, without requiring any major infrastructure changes. This scalability feature has saved us significant costs and allowed us to easily accommodate our growing number of electric motorcycles.

How many batteries can a lithium phosphate cabinet support?

It supports 48V/60V/72V lithium iron phosphate (LiFePO_4) and ternary lithium batteries. The 6-slot cabinet serves up to 15 users per day, often at smaller retail stores or mall entrances. It is highly flexible and supports dynamic parallel connection of multiple units.
