

Kyrgyzstan Solar Sunroom

Overview

Does Kyrgyzstan have good solar energy potential?

Ibraev Taalaibek Omukeevich, Minister of Energy of the Kyrgyz Republic, said: “Today, the energy system of the Kyrgyz Republic faces challenges meeting the significant demand for electricity from all categories of consumers with our existing resources. At the same time, Kyrgyzstan has good solar energy potential.

Why is Kyrgyzstan launching a 200 MW solar plant?

Kyrgyzstan is blessed with abundant solar resources and we see this 200 MW plant being the first of a number of projects that will support the nation’s goals on emissions reductions, while increasing clean energy access and security.”.

Why is Kyrgyz Republic a good place to live?

The Kyrgyz Republic is endowed with abundant and largely untapped renewable resources, providing a viable and competitive solution to meet its growing demand while expanding its power mix.
