

# **Laos PV Energy Storage Policy Latest**

## Overview

---

What are Laos' energy policies?

The country has also been focused on formulating and implementing energy policies that are gaining attention and support from the public. Initially, the energy policies in Laos primarily focused on the power sector.

What are the energy policies in Lao PDR?

Energy policies in Lao PDR prioritize environmental protection and growth. The Lao People's Democratic Republic (Lao P.D.R) gets more than 70 % of its energy from conventional sources, which emphasizes the urgent need to switch to renewable energy. This study looks at the supply and demand scenario for energy in the Lao P.D.R.

What does Lao PDR do to reduce fossil fuel reliance?

Lao PDR aims to cut fossil fuel reliance with clean energy initiatives. Energy policies in Lao PDR prioritize environmental protection and growth. The Lao People's Democratic Republic (Lao P.D.R) gets more than 70 % of its energy from conventional sources, which emphasizes the urgent need to switch to renewable energy.

How can Laos improve energy security?

By expanding its power exports and facilitating energy trade, Laos aims to enhance regional energy security and promote sustainable development in the Mekong subregion.

Does Laos have electricity?

As a landlocked country endowed with significant hydropower potential, Laos has historically relied on conventional energy sources to satisfy its burgeoning energy demands. Currently, approximately 94 % of its 6.95 million inhabitants have access to electricity, yet 1 million people remain without it .

How much renewable electricity will Laos generate by 2035?

The Energy Market Authority has already attracted proposals for 1.2 GW of renewable electricity, to be generated in four southeast Asian nations, and wants to raise that figure to 4 GW by 2035. EDF is planning to build a 240 MW floating PV project at Laos' largest hydropower dam.
