

Large battery cabinet group

Overview

What types of battery storage cabinets do you offer?

We provide modular battery storage cabinets and 20ft, 40ft energy storage containers that can be connected to inverters ranging from 100kW, 500kW 1MW, 2MW, 3MW & 4MW from manufacturers such as Power Electronics & SMA. We can offer both air cooled and liquid cooled battery modules to meet various climate conditions across the globe.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What is a Aceon Battery Cabinet?

AceOn offer a liquid cooled 344kWh battery cabinet solution. The ultra safe Lithium Ion Phosphate (LFP) battery cabinet can be connected in parallel to a maximum of 12 cabinets therefore offering a 4.13MWh battery block. The

battery energy storage cabinet solutions offer the most flexible deployment of battery systems on the market.

What are cellblock cabinets made of?

Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and fire-suppression, to keep your assets and personnel safe from hazardous lithium-ion battery fires.
