

Large solar all-in-one machine that can illuminate the home

Overview

Who is solar power store?

Solar Power Store is a Canadian Dealer for all-in-one solar power systems from reputable and trusted brands. When you purchase an inverter from us, we will provide technical and servicing support for your all-in-one solar system right from our warehouse in Orangeville Ontario.

Are DIY solar panels UL certified?

Connect some batteries and solar panels, change the settings, and you are done. The DIY battery community has used these units 24/7 for years! They are extremely dependable. As of 2021, they are now UL certified! This means that the components inside the units are high quality.

What is a solar combiner box?

This combiner box has everything you need, circuit breakers, individual fuses for each string, and a surge protection device. Just hook your panels up to this box, and connect this box's output to your All-in-one solar input. What is a PV Combiner Box?

.

Do I need a combiner box for a solar array?

If you plan to connect a large solar array, you will probably need to put your panels in parallel to keep the voltage down. When you have more than 2 strings of panels in parallel, you need over current protection for each string. This is easily accomplished by using a combiner box. They are available below.
