

Latest news on Southeast Asian liquid cooling energy storage companies

Overview

What is Southeast Asia's largest energy storage system?

Sembcorp Industries (Sembcorp) and Singapore's Energy Market Authority (EMA) have officially opened what is being touted as Southeast Asia's largest energy storage system. The Sembcorp energy storage system (ESS) spans two hectares of land in the Banyan and Sakra region on Jurong Island, southwest of the main island of Singapore.

Why is energy storage important in Southeast Asia?

Increasing renewable energy requires energy storage growth. Energy storage systems (ESS) are crucial for greater penetration of renewable energy, grid resilience, and flexibility; thus, leading to a quicker transition to clean energy. Southeast Asia is also increasing its momentum for implementing ESS.

How big is the Asia-Pacific liquid cooling market for stationary battery energy storage system?

The Asia-Pacific liquid cooling market for stationary battery energy storage system (BESS) is projected to reach \$14.67 billion by 2033 from \$2.42 billion in 2024, growing at a CAGR of 22.15% during the forecast period 2024-2033.
