

Latest prices for photovoltaic power station components

Overview

How much does a PV module cost?

The November 2021 technical report considers a PV module cost of \$0.34 per watt, which is equivalent to: As the size of a solar array increases, photovoltaic modules represent a higher percentage of total costs, while the percentage of soft costs decreases.

Where did photovoltaic cost data come from?

Photovoltaic cost data between 1975 and 2003 has been taken from Nemet (2009), between 2004 and 2009 from Farmer & Lafond (2016), and since 2010 from IRENA. Prices from Nemet (2009) and Farmer & Lafond (2016) have been converted to 2024 US\$ using the US GDP deflator, to account for the effects of inflation.

What's happening in the solar photovoltaic industry?

On-Demand Webinar This in-depth webinar explores the dynamic transformations occurring within the global solar photovoltaic (PV) industry. As geopolitical factors, trade policies, and manufacturing strategies evolve, the landscape of solar PV production and distribution is undergoing significant change.

How efficient is a residential PV system in 2024?

The representative residential PV system (RPV) for 2024 has a rating of 8 kW dc (the sum of the system's module ratings). Each module has an area (with frame) of 1.9 m² and a rated power of 400 watts, corresponding to an efficiency of 21.1%.

What is pvscm system cost?

The PVSCM system cost is the price paid by the system owner to the system developer. Any tax credit realized by the owner is excluded and must be considered separately. Tariffs paid on imported hardware are treated as

temporary market distortions that increase MMP but not MSP.

How do market analysts evaluate the cost of PV systems?

Market analysts routinely monitor and report the average cost of PV systems and components, but more detail is needed to understand the impact of recent and future technology developments on cost. Consequently, benchmark systems in the utility-scale, commercial, and residential PV market sectors are evaluated each year.
