

Latvian water pump inverter supplier

Overview

What is veichi solar water pump inverter?

- Constant pressure water supply solution. VEICHI solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, groundwater lowering and etc.
- Ingenious design -- small and exquisite inverter modules;

What is a solar water pump inverter?

SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs. Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources.

Which solar water pump inverter is best?

With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs.

What are the advantages of a water pump inverter?

- Single-phase pump: easy to get electricity, home use. When the pump impeller is blocked due to sediment, the inverter has built-in water pump cleaning function, which can clean foreign matter and impurities in the water pump with one button.
- Remote control, real-time monitoring offline/online storage, data analysis, high accuracy positioning;
