

Lithium battery pack 38v

Overview

How many lithium ion batteries are needed for a golf cart?

1 Lithium Ion batteries required. Designed for Golf Carts: LiTime 38.4V 100Ah golf cart LiFePO4 lithium battery is designed for golf carts.

What are the advantages of litime lithium batteries?

LiTime lithium batteries built-in intelligent BMS, provides overcharging, overdischarging, overcurrent and short-circuiting protections. It has an excellent self-discharge rate (LiFePO4 lithium batteries have a monthly self-discharge rate of less than 3%, while lead-acid batteries have a monthly self-discharge rate of 15-30%).

What type of cell does a lithium ion battery use?

It uses A+ grade cell (support 2C continuous discharge current), and the cell adopts full lug technology cylindrical cell, which is more uniform in force area, faster charging and better heat dissipation than similar square cell lithium batteries.

Are lithium FePO4 batteries safe?

It has an excellent self-discharge rate (LiFePO4 lithium batteries have a monthly self-discharge rate of less than 3%, while lead-acid batteries have a monthly self-discharge rate of 15-30%). While ensuring safety, it also allows you to easily cope with any environment and situation anytime, anywhere.
