

Low-profile lithium battery pack

Overview

What is a custom lithium polymer battery pack?

Lithium Polymer Battery Applications Custom LiPO Battery Packs (Lithium Polymer) are an excellent choice for battery pack designs requiring low profile, high energy density, dimensional flexibility, and very low current applications.

What is a custom LiPo battery pack?

Custom LiPO Battery Packs (Lithium Polymer batteries) are an excellent choice for battery pack designs requiring low profile, high energy density (3.7V per cell,) dimensional flexibility, and very low current applications. The foil package allows for custom sizes and various shapes to meet tight dimension requirements.

Why are custom lithium polymer batteries better than conventional lithium ion cells?

The difference in construction over conventional Li-ion cells allows for lower cost, safer operation, and flexible packaging options. The size of lithium polymer cells is a major factor and what makes custom lithium polymer battery packs and battery assemblies the battery of choice for many applications.

What can you do with a custom lithium-ion polymer rechargeable battery?

Wearable products, medical monitors, IoT devices, handheld, and new product designs that require very low profile cells and lower cost batteries. Explore energy solutions with custom lithium-ion polymer rechargeable batteries suppliers and manufacturers. Power up wearables with custom battery packs designed for optimal performance.

How do lithium polymer batteries differ from lithium ion batteries?

Lithium polymer batteries differ from lithium-ion batteries only in construction. The difference in construction over conventional Li-ion cells allows for lower

cost, safer operation, and flexible packaging options.

Low-profile lithium battery pack

XALT introduces low-profile Li-ion battery pack for commercial vehicles

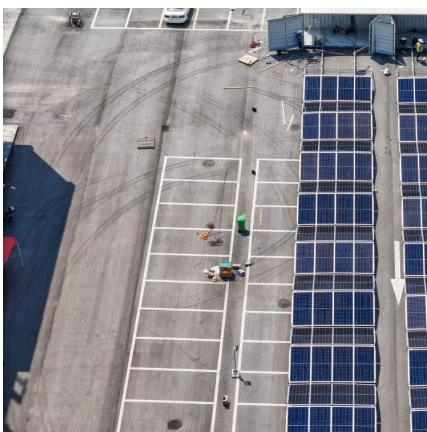

XALT Energy introduced a new low-profile, high-energy-density battery pack for commercial vehicles at Busworld 2019. The flat, scalable package offers easier installation of ...

[WhatsApp](#)

Lithium Ion battery pack, Lithium ion cell, Li Ion cell, Li ion battery

TYPICAL LITHIUM ION TECHNICAL DATA Over 30 models make up the Lithium Ion Cell range with aluminium cases a for reduced weight and increased capacity. The cells come in low ...
