

# **Luxembourg 5G communication base station wind power construction plan**

## Overview

---

Does Luxembourg have a 5G strategy?

Luxembourg has drafted a 5G Strategy. Luxembourg's Recovery and Resilience Plan (RRP) does not include any investment in connectivity, as the policy focus is on ensuring that private investment is sufficient to fulfil the objectives for 2025.

Who is affected by 5G in Luxembourg?

At the start of 2017, Digital Luxembourg's Infrastructure group consulted with the key players in the Grand Duchy who are affected by 5G, including the regulator, mobile network operators, academics, technology companies and stakeholders in the field of machine-to-machine communication (M2M) and/or the internet of things.

When will 5G be harmonised in Luxembourg?

The band is currently being harmonised for 5G at the European level. Frequencies in this band will be allocated during a second phase to take place in the second half of 2020. This band is also shared with other services, but it should be possible for a total of 1000 MHz in the band to be made available in Luxembourg.

When did a 5G sub-group meet in Luxembourg?

A 5G sub-group held its first meeting in July 2017 to exchange ideas on the various aspects of the future 5G ecosystem in Luxembourg, based on the bilateral consultations held earlier in the year.

How will Luxembourg's 5G rollout affect ultra-high-speed networks?

Rapid 5G rollout in Luxembourg will make it possible to achieve this convergence while at the same time fostering a smarter use of resources. The Luxembourg strategy for ultra-high-speed networks was focused on fixed networks, with 4G being an incidental consideration.

Does Luxembourg's Recovery & Resilience Plan include connectivity?

Luxembourg's Recovery and Resilience Plan (RRP) does not include any investment in connectivity, as the policy focus is on ensuring that private investment is sufficient to fulfil the objectives for 2025. The Checkmynet.lu tool measures the performance and quality of internet access services for end users and is free-of-charge.

## Luxembourg 5G communication base station wind power construction

---

### Research on location planning of 5G base station based on ...

In China, the coverage of 5G network is increasing rapidly, and the cost of base station construction is huge. Therefore, reasonable and efficient site planning is an extremely ...
