

Macedonia Solar Power Plant

Overview

The GEN-I Group has put a second large solar power plant into operation in North Macedonia, this time near Kavadarci. With a total power of 12 MW, the plant will generate up to 15,500 MWh of carbon-free energy a year, thereby helping to decarbonise the energy system. Who built the largest solar power plant in North Macedonia?

Slovenia's energy group GEN-I completed the construction of the largest solar power plant in North Macedonia and connected it to the grid in September, four months ahead of the government's deadline.

Why is Gen-I launching a solar power plant in North Macedonia?

The start of operation represents an important milestone for the expansion of GEN-I in the implementation of large solar power plant projects and the production of carbon-free electricity as well as a key contribution to the so-called Green Scenario of North Macedonia under the Strategy for Energy Development.

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Where is Gen-I solar power plant located?

Slovenia-based GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline. It is the largest photovoltaic facility in North Macedonia and the Western Balkans.

When did Gen-I complete the construction of the largest solar power plant?

Terms of use Privacy Policy GEN-I completed the construction of the largest solar power plant in North Macedonia and connected it to the grid in

September, 4 months ahead of the government's deadline.

How big is the new solar power plant?

“The new largest solar power plant to date, 17 MW, started its operation,” said Prime Minister Dimitar Kovačevski. “With this investment, we are moving towards energy independence, strengthening the green economy and improving the standard of living.
