By manufacturing battery management systems (BMS), the company experienced substantial revenue growth in 2021. Furthermore, LG Chem has been the preferred BMS provider for several top automobile manufacturers.

What is a battery management system?

A battery management system is an electronic system that can manage one or more rechargeable batteries in a range of application scenarios, including monitoring, calculating, and reporting secondary data, controlling the ecosystem, and authenticating and balancing the entire system. These systems are connected to an external communication data bus.

How important is a battery management system supplier?

The BMS market is anticipated to grow at a robust compound annual growth rate (CAGR) of 18.20% throughout the forecast period. As the importance of BMS is becoming more and more known, choosing a qualified Battery management system supplier is becoming more and more important.

What types of battery storage cabinets do you offer?

We provide modular battery storage cabinets and 20ft, 40ft energy storage containers that can be connected to inverters ranging from 100kW, 500kW 1MW, 2MW, 3MW & 4MW from manufacturers such as Power Electronics & SMA. We can offer both air cooled and liquid cooled battery modules to meet various climate conditions across the globe.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.
