

Micro wind and solar inverter

Overview

It is possible to add a micro wind turbine to your existing solar system, provided you have both a charge controller and inverter that can handle the two systems. Although there are downsides to using wind ener.

Micro wind and solar inverter

r/solar on Reddit: Can I add a small wind turbine directly into my

I have a 10 year old 4.3 kw solar array with 48v panels using enphase microinverters. Is it possible to easily add a 24v 1000w wind turbine generator to this system?

r/solar on Reddit: Can I add a small wind turbine directly into my

Most wind turbines are AC, and the ones that are DC are usually still outside of what a normal inverter can handle. You'll need a specialized or niche inverter, which will be costly.
