

Mozambique Government on Base Station Energy Management System

Overview

How has Mozambique improved electricity access?

The recently completed Mozambique Energy for All Project, along with the ongoing Sustainable Energy and Broadband Access in Rural Mozambique Project, have significantly contributed to expanding electricity access. To date, these projects have enabled over 2.6 million Mozambicans to connect to the national grid. ASCENT will build on these efforts.

Can Mozambique achieve universal energy access?

These efforts will significantly advance the Government of Mozambique's goal of achieving universal energy access," said Luc Lecuit, Interim Division Director for Mozambique, Madagascar, Mauritius, Comoros and Seychelles, and Operations Manager for the World Bank in Mozambique.

What are the national strategies for Mozambique?

Law n.º 11/2017, of September 8 th. The central goal of national strategies in Mozambique is to achieve countrywide energy access by 2030. The Integrated Power Sector Master Plan from EDM is the main policy for Mozambique. It has a set goal to increase installed capacity to 6,001 MW by 2030 and 20% integration of renewable energy in the grid.

What is Mozambique's integrated power sector master plan?

The Integrated Power Sector Master Plan from EDM is the main policy for Mozambique. It has a set goal to increase installed capacity to 6,001 MW by 2030 and 20% integration of renewable energy in the grid. The institutional, financial and technical approach to reach these goals is defined by the National Electrification Strategy (ENE) .

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) – South Africa being the largest importer. The government

view energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

What is Mozambique's rural electrification strategy?

Mozambique's state-owned utility, EDM has developed a strategy as well (often referred to as the Rural Electrification Strategy) to ensure the development of the energy sector in Mozambique and drive its growth as an important market in the Southern African region . These initiatives are based on Sustainable Development Goal (SDG) 7.
