

Mozambique outdoor power supply customization

Overview

What type of power outlet does Mozambique use?

Mozambique uses power outlets and plugs of types C, F & M. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Be careful!.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) – South Africa being the largest importer. The government view energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

Do I need a travel adapter for a Mozambique Charger?

However, it is possible you'll need an adapter to plug the charger into a Mozambique outlet. Mozambique uses electrical outlets and power plugs of types C, F & M (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. Are the electrical outlets and power plugs in your country different?

.

What is the standard power socket voltage in Mozambique?

All power sockets in Mozambique provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Mozambique if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

When did independent power projects start in Mozambique?

The first Independent Power Projects (IPPs) in Mozambique came online in 2015. These projects have paved the way for future IPP negotiations and, more recently, the standardization of tendering documents. Given EDM's weak financial capabilities, future IPPs will continue to rely on development banks for financing.

What is EDM doing in Mozambique?

EDM and Mozambique support the development of renewable energy projects, having launched public tenders for solar and wind projects, the country is also exploring battery storage solutions. The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroelétrica de Cahora Bassa (HCB).
