

Namibia PV Energy Storage Project Latest

Overview

Namibia has unveiled plans to procure and implement 330 megawatts (MW) of solar photovoltaic (PV) capacity as part of its 2024 ministerial determination, the Ministry of Mines and Energy announced. Will Namibia's Rosh Pinah project be able to generate solar power?

NamPower said the project site near the southern town of Rosh Pinah offered “excellent” conditions for solar generation, while its proximity to Namibia’s main power network meant additional investment would not be needed to connect the project to the grid.

Why should Namibia invest in a mega solar project?

This mega solar project will support Namibia’s efforts to enhance its renewable energy infrastructure and is expected to greatly contribute to the country’s general electricity supply security and also its sustainability goals.

Does NamPower have a solar project in Hardap?

NamPower has already invested in a number of solar projects in the country, including a 45.45MW project in the Hardap region. The Renewables Procurement & Revenues Summit serves as the European platform for connecting renewable energy suppliers to the future of energy demand.

Did NamPower sign an EPC contract with China?

NamPower, on Monday did signing on the engineering, procurement, and construction (EPC) contract with a Chinese joint venture for the development of Namibia’s Largest Solar Plant project, the 100MW Rosh Pinah Solar PV Power Plant.

Will NamPower finance 100MW Rosh Pinah PV project?

Executives from NamPower and Germany’s KfW bank sign the loan agreement for the 100MW Rosh Pinah PV project. Image: NamPower via LinkedIn.
Namibian utility NamPower has advanced plans for a 100MW solar PV project

with the agreement of a financing deal and the appointment of contractors to build the plant.

When will NamPower start a commercial solar project?

The project's commercial operation is anticipated for the second quarter of 2026. NamPower has already invested in a number of solar projects in the country, including a 45.45MW project in the Hardap region.
