

Namibia energy storage container 7MWh

Overview

Does Namibia have a bulk fuel storage facility?

Yes, the Government of the Republic of Namibia is in the final stages of constructing a bulk fuel storage facility in Walvis Bay. This facility, with a capacity of 75 million liters, will store ULP '95, Diesel 50ppm, HFO, and Jet Fuel. NAMCOR has been appointed as the operator of this facility.

Could surplus electricity be stored in the Bess?

Surplus electricity from RE generation as well as cheaper electricity imports from the Southern African Power Pool (SAPP) can be stored in the BESS. The stored energy could supply customers during peak times and would offset fossil energy from the aging local Van Eck coal power plant.

How much electricity does Namibia import?

Currently Namibia imports up to 70% of its electricity from neighbouring countries. This electricity is predominately generated with coal.

What is NamPower's contribution to the project?

NamPower's contribution to the Project is expected to be approximately NAD 100 mil. NamPower's Financial Statements are reported in NamPower's Annual Report, (Investor Relations section of the NamPower website,).
