

# **Netherlands gravity energy storage project completed**

## Overview

---

What is Wärtsilä's energy storage project?

This is Wärtsilä's first project in the Netherlands and one of the first of its kind anywhere in central Europe. As the largest energy storage project in the Netherlands to date, it will store the equivalent of the annual energy consumption of more than 9,000 households each year and reduce annual carbon dioxide emissions by up to 23,000 tonnes.

Why does the Netherlands need energy storage?

"As the Dutch energy transition efforts accelerate, the demand for flexibility is growing also. The challenges to our electricity grid have never been greater. Without adequate energy storage, the Netherlands risks increasing grid instability and security of supply risks," Lion Storage said in its announcement.

Does gravity Energy BV receive funding from Netherlands Enterprise Agency?

2021 Gravity Energy BV receives funding by Netherlands Enterprise Agency.  
2019 Gravity Energy first price Move Together Award. ~ Jury: 'The story is credible, the approach promising and the first results read as a boy's book'.

Will Giga storage build a lion storage project?

Image: Lion Storage via Youtube. Lion Storage has received a construction permit for a 347MW/1,457MW BESS project while Giga Storage hopes to start construction on a similarly sized one this year, representing a major step forward for the grid-scale energy storage market in the Netherlands.

Is gravity energy a good book?

2019 Gravity Energy first price Move Together Award. ~ Jury: 'The story is credible, the approach promising and the first results read as a boy's book'.  
Can we get energy from gravity?
