

# **New Energy Battery Cabinet Balancing Board**

## Overview

---

What is balancing board & Protection Board?

The balancing board is mainly used to maintain the voltage balance between battery cells and prevent overcharge or over-discharge problems caused by voltage imbalance between battery cells. The protection board is to protect the safety of the battery and prevent short circuit, overcharge, over-discharge and other problems.

Who is enerkey BMS power?

enerkey BMS Power has a strong R&D and management team with more than 10 years of work experience in the development of power battery lithium-ion protection boards and management systems (BMS). It has successfully developed and mass-produced over 60 hardware board specifications and over 30 intelligent BMS30 specifications.

What is balancing plate & protective plate in lithium iron phosphate batteries?

The functions and functions of the balancing plate and protective plate in lithium iron phosphate batteries are different. The balancing board is mainly used to maintain the voltage balance between battery cells and prevent overcharge or over-discharge problems caused by voltage imbalance between battery cells.

Can the battery board be charged by MPPT?

The battery board would be charged by the one whose current is larger. However, the new version is still under manufacture. So, if you buy now, it would be the version that does not support MPPT charging.

What is an enerkey BMS Booth?

The Enerkey BMS booth adopts an L-shaped open layout with multiple sample display areas, business negotiation areas and physical demonstration areas.

## New Energy Battery Cabinet Balancing Board

---

### PS-BC12112 BCPB3 5S 18650 5-24V Input Lithium Battery Balance ...

BCPB3 is a highly reliable Lithium-Ion Battery Charging, Protection, and Balancing Board that operates with wide input range, 5-24V. This board is able to charge the batteries from input ...
