

# **New energy storage foreign-invested enterprises**

## Overview

---

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

Why did affiliate Energy Group invest in the Sun Company?

Kim Eaves, president of Affiliate Energy Group, invested specifically for the technology's practical benefits: "I chose to invest in The Sun Company and The BESSt Company because their technology directly tackles the demand charges and peak power costs that have long burdened my customers.
