

New long-lasting flow battery

Overview

Flow batteries are among the next-generation storage systems that can sock away wind and solar energy for 8-10 hours or more, enabling grid managers to handle an increasing amount of renewable energy while improving resiliency and reliability.

New long-lasting flow battery

New, long-lasting flow battery could run for , EurekAlert!

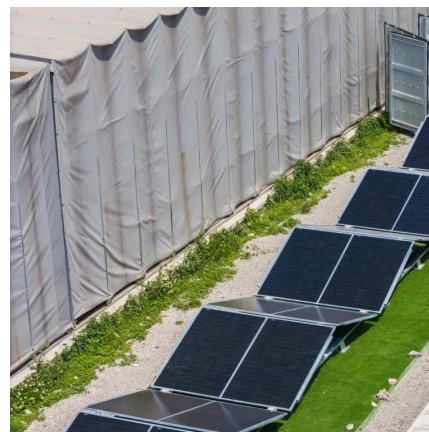

Harvard researchers have developed a new flow battery that stores energy in organic molecules dissolved in neutral pH water. This new chemistry allows for a non-toxic, non-corrosive battery ...
