

New solar all-in-one machine for home use in the courtyard

Overview

Which solar power systems are compatible with my home?

15 kW capacity (19500W max solar) making it suitable for whole home backup or small commercial installations. Broad battery compatibility such as Briggs & Stratton, Discover Energy Systems, Pytes, HomeGrid, Renon, Storz Power, EndurEnergy. 200A grid pass through allowing most homes to operate all of their electrical systems and appliances.

Does your home need a solar energy backup system?

Having a reliable solar energy storage backup for your home is critical. However, not all backup systems are created equal. Sol-Ark's 15K-2P Whole Home hybrid inverter is a breakthrough in home power protection that redefines adaptability, flexibility, and performance.

What's new with a new solar inverter?

The new residential offering will integrate a scalable battery and a new solar inverter up to 11.5kW to provide highly flexible whole home backup to fit various types of home across the US. This press release features multimedia.

How many inverters can a solar inverter run?

It can scale up to four battery modules per single battery (up to 17.6kWh), up to four batteries per inverter (up to 70.4kWh) and up to three inverters per site (211.2kWh). From an installer perspective, this enables the selection of the appropriate system size per individual and future system owner needs.

What is the Sol-Ark 15K outdoor case?

The Sol-Ark 15k Outdoor Case is a pre-wired system that contains the inverter, charge controller, and more, all in one package; no fuses, breakers, or combiner boxes necessary! With minimal additional hardware required, your install stays simple and low-cost.

What is a Sol-Ark 15K whole home inverter?

The Sol-Ark 15K Whole Home inverter is designed to transition seamlessly between grid- connected and independent power sources, optimizing efficiency in real-time.
