

# Nigeria sine wave inverter

## Overview

---

Why should you choose genus pure sine wave inverters?

Armed with dependable and avant-grade DSP technology, our Pure Sine Wave Inverters can efficiently produce Output in a regulated manner. Genus manufactures high quality Sine Wave inverters built with advanced ASIC technology. They deliver the same quality power as the mains.

What is a sinewave inverter?

A sinewave inverter is a device that converts DC power (such as from batteries or accumulators) into alternating current (typically 220 volts 50 Hz sine or corrected). In simpler terms, it converts direct current into alternating current. Our common emergency power supply often uses a DC battery to produce 220V AC through the use of a sinewave inverter.

What makes genus a good inverter?

Genus manufactures high quality Sine Wave inverters built with advanced ASIC technology. They deliver the same quality power as the mains. Genus Tubular Batteries are extremely efficient, have long life, and are designed to supply power consistently and dependably. Ever wondered about the optimal inverter capacity needed?
