

Nordic wind power energy storage cabinet manufacturer

Overview

Who is Nordic wind?

Please do not hesitate to contact us. Nordic Wind is a Fu-Gen company leveraging extensive expertise in developing, constructing, and optimizing renewable energy assets and technologies to pursue its mission of empowering future generations.

Who owns Nordic wind?

Nordic Wind aims to establish a development portfolio of 1.5 GW in the next 3 years. Nordic Wind, owned by Fu-Gen, is supported by institutional investors with a combined €100+bn of assets under management. Are you a landowner interested in partnering with us on a project?

Please do not hesitate to contact us.

What is the Nordic Wind Technology Power Park controller?

The Nordic Wind Technology Power Park Controller is a solution that is 1:1 compatible with the existing native Park Controller, enabling the owner or operator to take full control of the entire wind farm and maximize energy production. We take pride in being honest and transparent in all our dealings with clients.

Who is the CEO of Nordic wind?

Terje has been the CEO of Nordic Wind since 2020, his focus is on the establishment of new wind power projects and on collaboration with local partners and finding solutions to integrate complementary technologies and infrastructure into Nordic Wind's projects.

How to build a wind power plant in Norway?

To be able to build a wind power plant in Norway, several permits are required. The permit process with central authorities and municipalities.

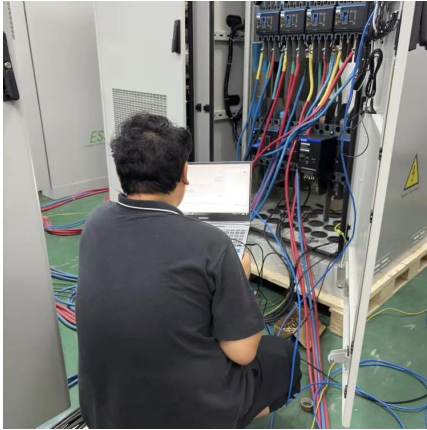

Surveys at different times of the year over several subsequent years.
Communication with authorities and stakeholders. Feedback from those affected.

What is a wind turbine retrofit solution?

Our Wind Turbine Retrofit Solutions are designed to “give the Power back” to the owners by delivering full control of the operation and maintenance of the wind turbines. Retrofitting older wind turbines with our technology is a more viable and profitable solution than investing in new wind turbines.
