

Outdoor Power Battery Communication

Overview

Cell towers transmit and receive RF (radio frequency) signals within the UHF (ultra-high frequency) electromagnetic spectrum band. Frequencies range from around 300 MHz to 3 GHz. The UHF radio wave.

Outdoor Power Battery Communication

Closed loop for schneider & EG4 PowerPro WallMount AllWeather battery

Thank you for the response. I set the RS485 protocol already, and as shown in the first image successfully configured the BMS. But, what is the purpose of 'BMS setup', which ...
