

# **Outdoor power supply is reliable**

## Overview

---

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

What should I consider when buying a portable power station?

The most important thing to consider when shopping for a portable power station is the amount of power and battery capacity you need. The price range for portable power stations can range from a fairly inexpensive product to a large-sized investment.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. [↓ Jump to the Rest of the Field](#) [↓ What to Know Before Purchasing a Portable Power Station](#).

Are portable power stations worth it?

This power station offers a lot of bang for the buck. Sure, it isn't going to power your house through a days-long outage, but it offers a lot of nice features for the price, making it one of the better values out there, especially if you can pick it up on sale. .

What is the best portable power station for camping?

EcoFlow Delta Mini (882Wh) (Update: Out of stock): When we tested it, this model hit a sweet spot of basic functionality, capacity and price, earning it a spot on our list as the best portable power station for camping. It also

supported charging with solar panels. Unfortunately, it's no longer available for sale.

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.
