

# **Papua New Guinea communication base station power supply security**

## Overview

---

Who is responsible for Papua New Guinea's 58MW power plant?

Under the agreement, Wärtsilä takes full responsibility for the operations of the 58MW power plant, which is the first ever utility-scale gas-engine powered plant in Papua New Guinea. The operation and maintenance of the plant is remotely supported by Wärtsilä Expertise Centres.

Who owns niupower in Papua New Guinea?

\*NiuPower Limited is a Papua New Guinean company focused on the development and operation of power generation assets in Papua New Guinea fuelled by PNG produced natural gas. NiuPower is jointly owned by Kumul Petroleum Holdings Limited (PNG's national oil company) and Oil Search Limited.

How will the niupower Port Moresby power station improve reliability?

Once online, the NiuPower Port Moresby Power Station will greatly improve the reliability of the Port Moresby power grid and, we have been advised by our customer PNG Power, will reduce the cost of power supply into the grid by up to PGK100 million (EUR27 million) per annum.

What is the Port Moresby power station?

The Port Moresby Power Station provides highly efficient and flexible base-load power supply to stabilise the Port Moresby System. The power plant will start operating in January 2019.

Who is a Papua New Guinea Company?

Established in 1955 in Port Moresby, Papua New Guinea, we are proud to be a PNG company operating at international standards. We stand by our quality product partners, our local workmanship and highly responsive in-country support. If playback doesn't begin shortly, try restarting your device.
