

# **Philippines Industrial and Commercial Energy Storage System Manufacturer**

## Overview

---

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

Why should the Philippines invest in energy storage?

The Philippines has a substantial incentive to face the challenges of the effects of climate change as a tropical archipelago. The country wants 50% renewables in the energy mix by 2040. As an essential part of a low-carbon energy system, the Philippines' energy storage market holds great potential.

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

What is a battery energy storage system?

Battery Energy Storage Systems, commonly known as BESS, are advanced energy storage solutions designed to store electricity generated during periods of low demand or from renewable sources such as solar panels or wind turbines.

How many Bess facilities are there in the Philippines?

We are operating BESS facilities at 32 locations in the Philippines, across the regions of Luzon, Visayas, and Mindanao. Overall, we are putting up approximately 1,000 MW of BESS facilities, which will help ensure the

reliability of the grid, especially in areas that are in most need of power quality solutions.

Is Sungrow a good company to buy in the Philippines?

Sungrow made its first entry into the Philippines market about 10 years ago and has maintained the No.1 market position for years.

## Philippines Industrial and Commercial Energy Storage System Manu
