

Photovoltaic inverter project partner

Overview

Who makes Trina Solar inverters?

Founded in 1997, Trina Solar Co., Ltd. (also known as Trinasolar) is mainly engaged in solar inverters. Since 2005, Solis has been making reliable and affordable solar inverters for home use. WINAICO Deutschland GmbH was founded in 2008 and since then the WINAICO brand has been active. SolarEdge's DC optimised inverter solution maximises power generation while lowering costs.

What's new with EPC & PVI?

The new EPC contractor has their preferred cable management approach for both DC and MV cables. PVI team worked with new EPC & IPP teams to optimize and re-do all cable management as needed. Similar to PV modules, we also had two other major equipment supplier/configuration changes during design phase.

What does a PV project manager do?

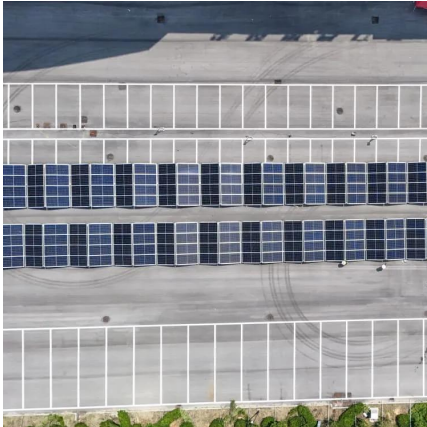

Supervising the construction and commissioning phase (PAC). Assess risks of PV plants to protect your investment. Technical Due Diligence and risk analysis prior to financial close. Technical Due Diligence and risk analysis of operational projects for acquisition and refinancing. Controlling inverter and structure quality at source.

How did PVI work with new EPC & IPP teams?

PVI team worked with new EPC & IPP teams to optimize and re-do all cable management as needed. Similar to PV modules, we also had two other major equipment supplier/configuration changes during design phase. This was also done with no-scope change order, aligned with the spirit of true partnership.
