

Photovoltaic panel power generation project in Morocco

Overview

Morocco Renewable Energy solar projects to be installed between now and 2030 The Moroccan Agency for Solar Energy invited expressions of interest in the design, construction, operation, maintenance and financing of the first of the five planned solar power stations, the 500 MW complex in the southern town of , that includes both and . Construction officially began on 10 May 2013. The project is divided in 3 phases: a 160MW

Morocco's solar push is among the biggest, with a \$9 billion plan to hit 2 gigawatts of solar power. The Ouarzazate Solar Power Station, or Noor CSP, is a key project. It plans to power over 1 million homes with 1.2 terawatt-hours of electricity each year.
