

Photovoltaic solar power stations in Morocco

Overview

Morocco Renewable Energy solar projects to be installed between now and 2030 Ouarzazate solar plant The Moroccan Agency for Solar Energy invited expressions of interest in the design, construction, operation, maintenance and financing of the first of the five planned solar power stations, the 500 MW.

Solar power in Morocco is enabled by the country having one of the highest rates of solar among other countries— about 3,000 hours per year of sunshine but up to 3,600 hours in the desert. has.

An (IEA) report from July 2023 highlights that in 2020, imported fossil fuels—coal, oil, and gas—accounted for over 80% of Morocco's electricity.
