

# Portugal 5G base station

## Overview

---

How many base stations in Portugal have 5G?

Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks. At the end of 1st quarter 2024, according to information reported by operators, there were 9,999 base stations in Portugal with 5G technology.

What is the density of 5G base stations in Portugal?

At the end of 1st quarter 2024, the density of 5G base stations in Portugal was one base station per 10 km<sup>2</sup> - on average, 97 5G base stations per 100,000 inhabitants.

Which operator has the largest base of 5G stations?

Taking the end of the 2<sup>nd</sup> quarter as a reference, NOS is the operator with the largest installed base of 5G base stations, with a total of 3725 stations (48%), followed by Vodafone with 2769 stations (35%) and MEO with 1337 stations (17%).

How many 5G base stations are there in 2023?

At the end of the 2<sup>nd</sup> quarter of 2023, according to information reported to ANACOM, the number of base stations installed in the national territory using 5G technology totalled 7831 stations, spread across 308 municipalities (100% of the country's municipalities) and 1833 civil parishes (59% of the country's civil parishes).

Who are 5G base stations suppliers?

Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market. China has installed around 12 times as many 5G base

stations as the United States.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.
