

# **Portugal Communications Energy Storage Battery**

## Overview

---

Portugal is preparing to hold a competitive auction for 750 MVA of battery energy storage capacity before January 2026. This initiative is part of a €400 million investment package designed to improve energy storage deployment, enhance grid resilience, and prevent future power disruptions. How much will Portugal invest in battery storage after Iberian blackout?

Portugal will invest \$480 M (€400 M) to strengthen grid stability and scale battery storage, aiming for 750 MW of BESS capacity after Iberian blackout.

How much money does Portugal need to modernise its electricity grid?

Portugal: Portugal has unveiled a \$480 M (€400 M) investment package to modernise its electricity grid and significantly expand battery energy storage systems (BESS), following a major Iberian blackout earlier this year.

Does Portugal need a power grid stability & energy storage solution?

Portugal: The country aims to source over 90% of its power from domestic renewables by 2030, with significant contributions from wind and hydroelectric power. Despite these advancements, the blackout revealed the need for improved grid stability and energy storage solutions to handle unexpected disruptions.

How much will Portugal invest in grid management after a blackout?

REUTERS/Pedro Nunes/File Photo Purchase Licensing Rights LISBON, July 28 (Reuters) - The Portuguese government plans to invest up to 400 million euros (\$466 million) to improve grid management and boost battery storage following a massive blackout across Spain and Portugal in April.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by
