

Price of 20kw photovoltaic panels

Overview

On average, a 20 kW solar panel system costs \$47,600, according to real-world quotes on the EnergySage Marketplace from 2025 data. However, your price may differ—solar costs can vary significantly from state to state. How much does a 20 kW solar panel cost?

On average, a 20 kW solar panel system costs \$55,000, according to real-world quotes on the EnergySage Marketplace from the first half of 2024. However, your price may differ; solar costs can vary significantly from state to state. The table below should give you an idea of what you can expect to pay for a 20 kW solar panel system in your state.

Where can I buy a 20 kW solar system?

Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 20 kW PV systems for sale. These 20 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

What is a 20kW Solar System?

Achieve energy independence with our 20kW solar systems. Generating approximately 2,000 to 3,000 kWh of AC power a month, 20kW solar systems are ideal for large households with several EVs and huge energy demands. Choose from a selection of grid-tie and off-grid 20kW solar systems, or get in touch with our experts for a custom system!.

How much electricity does a 20 kW solar system produce?

A 20 kW solar panel system produces about 29,033 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. DIYing a 20 kW solar panel system usually isn't your best bet: You're much better off hiring a professional solar company for optimal results. How much does a 20 kW solar system cost?

.

Can a 20 kW solar system power a house?

A 20kW solar energy system can enable you to power your home autonomously. However, you will need solar batteries to store excess energy during periods when sunlight is limited or absent, like at night or on cloudy days. How much space will the solar panels take on my roof or ground?

.

Should you invest in a 20kW Solar System?

Investing in a 20kW solar system can bring significant financial benefits, particularly if you reside in an area with ample sunlight. With the potential to generate \$6,205 worth of electricity every year, a 20% return on investment can be achieved based on the current costs of panels (\$40,000 for this system).
