

Production and sales of lead-acid battery cabinets

Overview

What is the global lead acid battery market size?

The global lead acid battery market size was valued at USD 48.50 billion in 2024 and is projected to grow from USD 51.03 billion in 2025 to USD 73.96 billion by 2032, exhibiting a CAGR of 5.44% during the forecast period. Asia Pacific dominated the global market with a share of 39.67% in 2024.

How big is the lead acid battery market in 2023?

The lead acid battery market in 2023 was valued at USD 95.9 billion and is estimated to grow at 3.1% CAGR by 2034 owing to increasing demand for uninterrupted power supply.

What is a lead acid battery?

Lead acid battery, also known as a lead storage battery, is a rechargeable battery that uses lead and sulfuric acid materials for function. Although lead acid batteries are highly reliable, they have minimal life. The battery also contains some toxic materials, which require unique removal methods at the end of their life.

Why is the lead acid batteries market growing?

The growing demand for power backup systems from various industries, such as the oil & gas, automotive, telecom, mining, manufacturing, chemical industry, and others, is expected to push the lead acid batteries market growth.

How is the lead acid battery market segmented?

Based on sales channel, the lead acid battery market is segmented as OEM and aftermarket. The aftermarket sales channel market holds a share of over 75% in 2023, attributed to the broad applicability of aftermarket products in diverse areas like motor vehicles, automobiles, and UPS systems.

How big is the lead-acid battery market?
