

# **Professional photovoltaic panel installation manufacturer**

## Overview

---

Most solar companies will offer you a free estimate for the cost of materials and labor for a solar installation. If you aren't sure what type of products you want or need, try to find a company that prioritizes its cus.

What does a solar PV installer do?

Solar photovoltaic (PV) installers or solar panel installers specialize in installing solar panels for residential and commercial applications. A solar PV system consists of solar panels with photovoltaic cells that convert sunlight (solar radiation) into direct current electricity.

What is a solar PV system?

A solar PV system consists of solar panels with photovoltaic cells that convert sunlight (solar radiation) into direct current electricity. Residential and commercial solar panels help access clean technology, achieve energy independence and security, as well as reduce carbon footprint and utility expenses.

What does a solar panel installer do?

Solar panel installers install solar panels for residential and commercial applications. Learn more about the top 10 U.S. solar panel installers.

How do I choose a solar installation company?

Research solar installation companies and get multiple quotes: This process can help you get a sense for each company's options and reputation and general expectations for how much power a solar installation can produce on your home. We suggest vetting at least three solar companies, depending on the availability in your area.

Who owns Blue Raven solar?

Blue Raven Solar has been in business for over a decade and is now owned by Complete Solar after previously being under the SunPower umbrella. The company offers services in 19 states, and one of its biggest draws is its

policies of no money down installations that delay payments for solar customers. Learn more: [Blue Raven Solar review](#).

How do I meet with a solar installer?

When you meet with a solar installer, a representative should walk you through the company's specific design and installation process, but below, we'll give you a high-level overview of how solar installation typically works.
