

Purchase a new home solar all-in-one machine

Overview

Can a solar power system be connected to a generator?

With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources. Say goodbye to complicated setups and enjoy the convenience of our complete solar power systems. Embrace energy independence effortlessly and power your life with ease.

What are all-inclusive solar kits?

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.

What are pre-made solar kits?

Look no further than our pre-made solar kit packages. These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation.

Do I need a combiner box for a solar array?

If you plan to connect a large solar array, you will probably need to put your panels in parallel to keep the voltage down. When you have more than 2 strings of panels in parallel, you need over current protection for each string. This is easily accomplished by using a combiner box. They are available below.

Purchase a new home solar all-in-one machine

Multifunctional Solar Inverter Pure SineWave PV Inverter Reverse

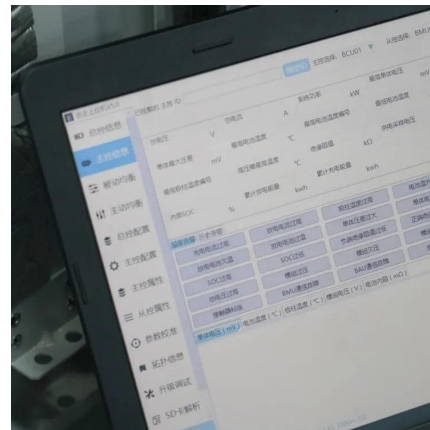

This is a multi-function inverter, combining functions of inverter, solar recharger and battery recharger to offer uninterrupted power support with portable size.
